## EDUCATION

---

<b>B. Tech / Information Technology</b>	[2021 – 2025]
Greater Noida Institute Of Technology  Greater Noida	GPA-7
<b>CBSE Senior School (Class XII)</b>	[2020]
Kamla Nehru Institute of Child Education Sultanpur	Percentage-78
<b>High School (Class X)</b>	[2018]
Kamla Nehru Institute of Child Education Sultanpur	Percentage-91

## PROJECTS

---

[\[Link\]](#) **E-Commerce:** A full-stack e-commerce platform featuring secure user authentication, payment processing, and comprehensive product management capabilities

- Developed a full-stack e-commerce platform with user/admin roles, payment processing, and order management
- Built secure RESTful APIs and integrated Stripe payments, JWT authentication, and forgot password feature
- Engineered responsive admin dashboard for inventory management and real-time order tracking
- Implemented key features: product search/filtering, shopping cart, and secure checkout process with stripe
- [Repository](#)

**Tech Stack:**

- **Frontend:** React.js, Redux Toolkit, Material-UI, CSS
- **Backend:** Node.js, Express.js, MongoDB, Mongoose
- **Tools & Services:** Stripe, JWT, Nodemailer

[\[Link\]](#) **Responsive Movie Streaming Platform**

- Created a Netflix-inspired streaming interface with dynamic content loading and responsive design
- Implemented real-time movie data integration using TMDB API for featured content, ratings, and recommendations
- Built seamless navigation and category browsing with React Router and custom animations
- [Repository](#)

**Tech Stack:**

- **Frontend:** React.js, SCSS/Sass, React Router
- **Integration:** Axios, TMDB API

[\[Link\]](#) **Interactive Etch-a-Sketch Drawing Tool**

- Developed a web-based drawing application with customizable grid size and interactive sketching capabilities
- Implemented dynamic color modes, including rainbow effect and grayscale shading
- Created responsive canvas with smooth drawing mechanics and eraser functionality
- Built intuitive UI controls for grid resizing and color selection
- [Repository](#)

**Tech Stack:** JavaScript, HTML, CSS

## TECHNICAL SKILLS

---

- **Frontend:** Javascript, React.js, Redux toolkit, Tailwind CSS, Responsive design
- **Backend:** Node.js, Express.js, Mongoose, RESTful API Development, JWT, OAuth
- **Databases:** MySQL, MongoDB
- **Developer tools:** git, Github, npm, Visual Studio, vim, StackOverflow

## OTHER

---

- **Soft skills:** Communication, Teamwork, Problem-solving, Time management, Adaptability, Attention to detail
- **Course work:** DSA, Operating System, DBMS, Computer Networks
- **Areas of interest:** Back-end, Software development, Full stack development, Front-end,
